

FORD ACCESSORIES

Why insist on Ford
Approved Accessories?

Insist on Ford Approved Because YOUR safety is our PRIORITY!

“Why would anyone consciously put themselves and their families at risk by fitting an unapproved accessory to their vehicle?”

Did You Know: Fatal or serious injury resulting from a motor vehicle’s air bags activating inappropriately is a reality caused by inferior quality nudge bars or bull bars, meaning it is irresponsible for owners or dealers to fit non-approved equipment.

Maxe nudge bars are tested and approved for airbag compliance.

All Maxe products are durability tested to withstand the most extreme road conditions

Maxe side steps are tested and approved for side airbag deployment

Maxe accessories are approved by Ford Motor Company for Quality Assurance, Safety, Reliability and Durability

TONNEAU COVER

Tonneau covers are manufactured from UV tested, approved, automotive grade vinyl (700gsm) using an integrated reinforced structure.

All components are made from either stainless steel or anodised aluminium making them particularly resistant to corrosion.

Highest water and dust resistance in the industry and will not dam water due to their unique torsion settings and premium quality material which is the highest available in the industry.

Tonneau covers have a revolutionary torsion latch mechanism making them extremely easy to open and close.

Tonneau covers are manufactured to the highest automotive quality standards (Certified Automotive Quality Standard ISOTS16949) to withstand even the harshest African conditions.

Benefits of Fitting Maxe Approved Accessories on your Ford

- Warranty: Maxe Accessories match the vehicle warranty.**
- Maxe has 21 years' experience in manufacturing OEM Approved Accessories.
- We place increasing importance on the engineering and safety aspects built into our products.
- All our front end bars, such as nudge bars, undergo Airbag Compatibility Testing.
- Maxe's 12-member strong research and development team, works closely with the motor vehicle manufacturers, consistently setting new industry standards with safety at the forefront of our developments.
- As approved Manufacturers to Ford Motor Company South Africa, Maxe Accessories do not affect owner's warranties on new motor vehicles.
- All Maxe products undergo stringent safety and quality testing.
- All our front end bars, such as nudge bars, undergo Airbag Compatibility Testing.
- Maxe Premium Automotive Accessories is the only local manufacturer with FMC-SA approval on nudge bars
- All Maxe products undergo Durability Testing to ensure they can withstand the most extreme South African road conditions.
- Maxe accessories are often copied, but never matched, and consumers should be aware of untested, cheaper imitations.

Are you putting yourself and your family at risk?

** Electronic parts, LED Lights, Harnesses and loose brackets only carry a 1 (one) year warranty and Mild Steel Products, which carries a 2 year warranty.
